MATERIAL
Ductile Cast Iron

SIZE
645mm (L) x 396mm (W) x 50mm (D)

LOAD RATING
B

Features & benefits

Wear resistance

Being made from cast iron this product demonstrates good wear resistance in a wide variety of applications

Dimensional Accuracy

Being made from cast iron this product is produced with good dimensional accuracy as per Telstra requirements

Full specifications

Material	Ductile iron covers are manufactured from spheroidal graphite cast iron to achieve specified tensile strength and elongation requirements. Ductile iron covers can be utilised in a variety of applications to meet strength and durability requirements.
Australian Standards	The cast iron cover range is designed and built up to a Class D load rating, meeting the Australian Standard AS/NZ 3996.
Load Rating	Infrastructure Products Australia’s cast iron covers are manufactured up to a Class G load rating under the Australian Standard AS/NZ 3996, thereby making cast iron covers suitable for docks, wharves and airport runways.
