# ENCASEMENT INFILL 1310X1310X200 WITH 99D CLASS D

Product Code: 50201255

Infrastructure Products Australia's precast encasements are manufactured using a 40MPa steel reinforced concrete and come in a variety of sizes to suit Infrastructure Products Australia's broad range of access covers, including GMS and cast iron covers.

MATERIAL
Ductile Cast Iron, Precast Concrete

SIZE
1310mm (L) x 1310mm (W) x 200mm (D)

LOAD RATING
D

## Features & benefits

### Variability in size

Our precast encasement range comes in a variety of sizes to accommodate for our broad range of access cover options to ensure you have the right combination for your project.

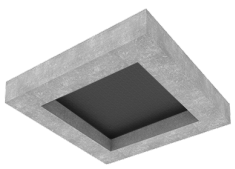

### Heavy duty applications

Manufactured using steel reinforced 40MPa concrete, Infrastructure Products Australia' precast encasements are an excellent solution for heavy duty applications.

### Extensive life span

Design engineered to meet industry and installation requirements, your precast encasement is guaranteed to withstand even the harshest conditions.

## Full specifications

| | |
|---|---|
| Material | High strength concrete has a compressive strength of 40MPa or greater. Infrastructure Products Australia manufactures their precast encasements using steel reinforced concrete to ensure a minimum of 40MPa. This ensures that our precast encasements remain durable and robust throughout their lifetime. |
| Load Rating | Infrastructure Products Australia' precast encasements are manufactured a Class D load rating (a serviceability design load of 900kN) under the Australian Standard AS/NZ 3996. |
