ENCASEMENT INFILL 1150X1150X150 WITH 750×750 CLASS B

Product Code: 50206831

Infrastructure Products Australia' precast encasements are manufactured using a 40MPa steel reinforced concrete and come in a variety of sizes to suit Infrastructure Products Australia’ broad range of access covers, including GMS and cast iron covers.

MATERIAL
Ductile Cast Iron, Precast Concrete

SIZE
1150mm (L) x 1150mm (W) x 150mm (D)

LOAD RATING
B

Features & benefits

Variability in size

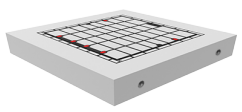

Our precast encasement range comes in a variety of sizes to accommodate for our broad range of access cover options to ensure you have the right combination for your project.

Heavy duty applications

Manufactured using steel reinforced 40MPa concrete, Infrastructure Products Australia’ precast encasements are an excellent solution for heavy duty applications.

Bespoke capabilities

Custom sizing of our precast encasements is available to suit the unique requirements of your project, so that you can be confident you’re getting exactly what you need.

Full specifications

Material	High strength concrete has a compressive strength of 40MPa or greater. Infrastructure Products Australia manufactures their precast encasements using steel reinforced concrete to ensure a minimum of 40MPa. This ensures that our precast encasements remain durable and robust throughout their lifetime.
Load Rating	Precast encasements are manufactured a Class B load rating (a serviceability design load of 900kN) under the Australian Standard AS/NZ 3996. This makes our precast encasements suitable for docks, wharves and airport runways.
