STAKKAbox Fortress is a range of modular and structural pre-formed pits, suitable for use in electrical and communication environments.

SIZE
(L) x (W) x (D)

LOAD RATING
B

Features & benefits

Fast and Easy to Install

This system provides contractors with a means of constructing pits quickly and inexpensively, whilst offering improved build quality, reduced heavy machinery required and enhanced site safety.

Lightweight

Due to the sectional twin-wall design and the GRP material, it's suitable for a single-person lift under manual handling regulations. Most of our Fortress sections fall under 25kg in weight.
