HS5 RING SECTION – 150MM RISER

Product Code: 50201805

HS5 is the smallest option from the high strength range. It was designed for easy transportation, quick assembly and ground-level adjustability.

MATERIAL
High Density Polyethylene (HDPE)

SIZE
735mm (L) x 482mm (W) x 204mm (D)

LOAD RATING
B

Features & benefits

Lightweight parts

It can be transported by a ute and assembled by a single person without the need for heavy lifting machinery.

Quick assembly

It can be completed from start to finish within less than an hour.

Reduced Costs

Compared to traditional alternatives, installation costs are lower due to faster installation and the removal of skilled labour or specialist lifting.

Full specifications

Material	STAKKAbox™ Fortress is manufactured in nitrogen-foamed High-Density Polyethylene (HDPE), of which up to 70% is recycled material. HDPE possesses excellent strength-to-weight properties.
How it works	Built by stacking sections to the required depth, each part weighs under 25kg, making it suitable for a single person to lift under manual handling guidelines.
